

There are only 2 Ways to increase profits, *Increase Sales or Reduce Costs...*What will you do this year?

At ABA Partners Plus, we review your bills and identify savings to help you run as efficiently as possible. Founded on the principle of working on behalf of our customers, we leverage our expertise to create professional strategies and solutions to assist you in managing and reducing your costs.

Energy

Over 81% of commercial accounts pay too much on electric and natural gas. We understand the frustration of being inundated with all the energy options, and not knowing what to choose or when to pull the trigger. When it comes to making well-timed electricity purchases for your business, nobody in the market offers more powerful solutions. Whether your company is looking to have budget certainty or finding every last savings, we will uncover what is best for your needs.

As of December 2013, families and businesses have realized estimated savings of more than \$295 billion on utility bills and prevented more than 2.1 billion metric tons of greenhouse gas emissions over the past two decades.

EnergyStar, a U.S. Environmental Protection Agency (EPA) voluntary program that helps businesses and individuals save money and protect our climate through superior energy efficiency.

Invoice audits

8 out of 10 organizations are overcharged on their utility bills due to calculation errors, discrepancies billed by the utility and service providers. These discrepancies can lead to substantial savings. ABA Partners Plus now offers auditing services for utility bills, powered by National Utilities Refund (NUR). NUR will look at these areas in your business to uncover savings that you will allow you to spend less with your suppliers, invest in your business, or allocate for special projects.

- Electricity
- · Natural Gas
- Telecommunications
 & Cellular
- · Internet & Data
- · Water and Sewer
- · Merchant Services

Lighting Solutions

Lighting has changed over the last decade in so many ways, the options are plentiful. ABA Partners Plus will create lighting systems for your needs using the strengths of our experience with today's new demands. Keeping in mind how energy and lighting work together, we will create a system that will be the MOST energy efficient while providing all the benefits of a great lighting system, ambiance, cost, and minimal maintenance needed.

Telecommunications

Through our telecommunications division, we deliver proven cost optimization through an easy-to-understand approach, with NO upfront investment from you. We guarantee a minimum of 10 percent savings on your current wireless spend and can offer a complete cradle to grave life-cycle solution from procurement to help desk in order to remove the management burden from your internal IT staff. We also negotiate with fixed voice and data carriers on your behalf to achieve significant reductions on your wireline network costs.

Waste Management

We specialize in reducing the cost of waste removal and recycling nationwide. We help companies control and reduce the rising cost of waste removal. Some of the areas we will identify are:

- · Optimum Pricing
- · Optimum Sizing
- · Consolidated Billing
- · E-Service
- · Recycle Profile
- · Rate Increase Control
- · Invoice Monitoring
- · Contract Management
- · Waste Consolidation
- · Special Projects
